SUMMARY

Frontend Developer with 2.9+ years of experience building responsive, high-performance web applications using React.js, Next.js, and modern JavaScript. Proficient in modern frameworks, state management (Redux, Zustand, Context API), and API integration (REST, Gemini AI). Skilled at translating UI/UX designs into clean, scalable code with Tailwind CSS and SASS/SCSS. Recognized for problem-solving, attention to detail, and the ability to collaborate effectively to deliver pixel-perfect, production-ready UI solutions.

EXPERIENCE

Frontend Developer · Luminous Labs, Dhaka, Bangladesh 09/2023 – Present

- Responsive, cross-device UIs:** Build with React.js, Next.js, Tailwind CSS, and SASS/SCSS — using nested rules, mixins, and partials for maintainable styling across desktop, tablet, and mobile.
- Translate design & UI/UX mocks into clean code:** Convert Figma designs into pixel-perfect, production-ready code (HTML5, CSS3/SCSS, ES6+ JavaScript, React/Next.js) using reusable component libraries.
- Modern state management:** Build interactive, dynamic UIs with Redux, Zustand, and Context API; manage UI logic, interactivity, and component reuse.
- API & AI integration:** Connect frontend with REST APIs and AI services (Gemini AI) for real-time, dynamic data rendering across dashboards and platforms.
- WordPress & Elementor:** Build WordPress sites and develop custom Elementor widgets and landing-page components for client projects.
- AI-assisted development:** Leverage Claude, ChatGPT, and Copilot to accelerate development, debugging, and code quality.
- Collaboration:** Work with designers, backend, and QA across the full delivery cycle; diagnose and resolve UI bugs, API issues, and performance bottlenecks.

Frontend Developer Intern · Luminous Labs, Dhaka, Bangladesh 03/2022 – 09/2022

- Contributed to web app, e-commerce, and WordPress projects across UI implementation and QA.
- Translated mockups into responsive HTML, CSS/SCSS, and JavaScript components under senior developer mentorship.
- Participated in the team workflow: Analysis → UX & UI Design → Development → Testing → Feedback → Refinement → Release.

PROJECTS

AI Avatar — AI Workflow Automation Platform · USA 07/2025 – Present

React.js · Next.js · Tailwind · SCSS · Gemini AI · avatarplayground.luminousdemo.com

- Built UI for subscription management, content generation, and product analysis.
- Integrated Gemini AI services and REST APIs for real-time automation and dynamic data display.

VoiceNimble — Voice / Communication SaaS Platform 2024 – Present

React.js · Next.js · Tailwind · SCSS · REST APIs · voicenimble.com · app.voicenimble.com

- Developed responsive marketing site and authenticated app dashboard for a voice communication platform.
- Built login flow, dashboard interfaces, and reusable components; integrated APIs for real-time data.

Beige — Creative Talent Booking Platform · USA 11/2024 – 06/2025

React.js · Next.js · Tailwind · REST APIs · beige.app

- Developed responsive frontend connecting users with top-rated videographers and photographers.
- Built booking interfaces, project management dashboards; integrated APIs for real-time updates.

TECHNICAL SKILLS

Languages

JavaScript (ES6+), HTML5, CSS3, jQuery

Frameworks

React.js, Next.js (SSR, SSG, CSR)

State Management

Redux, Zustand, Context API

Styling

Tailwind CSS, SASS/SCSS (nested rules, mixins, partials, variables), Responsive Web Design

CMS

WordPress, Elementor (custom widgets & landing pages)

APIs & Data

REST API Integration, Gemini AI API, Dynamic Rendering

Tools

Git, GitHub, VS Code, Chrome DevTools, Figma, AI Tools (Claude, ChatGPT, Copilot)

Concepts

Component Architecture, Cross-Browser Compatibility, Performance Optimization

SOFT SKILLS

Hardworking, Teamwork & Collaboration, Problem-Solving, Fast Learner, Communication Skills

EDUCATION

Diploma in Computer Technology

Dash Polytechnic Institute
02/2023 – Present

LANGUAGES

ENGLISH ●●●●●
BANGLA ●●●●●

INTERESTS

- ♦ Programming and exploring technologies
- ♦ Traveling, Cricket, Badminton and Football

PROJECTS (CONTINUED)

AlertComm — Communication Platform 05/2025 – 10/2025

React.js · Tailwind · SCSS · REST APIs · [alertcomm1.com](#)

- Developed a fully responsive and user-friendly frontend with interactive pages and navigation.
- Integrated backend APIs for real-time data handling.
- Ensured cross-device and cross-browser compatibility for a smooth user experience.

Meridian Africa — Corporate Landing Page · UK 06/2025 – 09/2025

React.js · Next.js · Tailwind · SCSS · [meridianafrica.io](#)

- Developed a fully responsive landing page with pixel-perfect designs and smooth navigation.
- Built interactive elements with cross-browser and cross-device compatibility.
- Optimized for fast load times and engaging user experience.

IELTSMocker — IELTS Mock Test Platform 2024

React.js · Tailwind · SCSS · REST APIs · [ieltsmocker.com](#)

- Built responsive frontend for IELTS mock test platform with timed test sections and user dashboards.
- Implemented interactive question flows and result-display interfaces; integrated APIs for test data.

Text CRM — CRM & Chat Platform · Bangladesh 01/2024 – 03/2024

React.js · Tailwind · REST APIs · [textcrm.chat](#)

- Designed intuitive interfaces for dashboards, chat, and product catalog modules.
- Focused on usability, layout, and responsive design.

Carpentier Agency — Photography Agency Site · France 11/2024 – 12/2024

React.js · Tailwind · [carpentieragency.com](#)

- Built engaging landing page with interactive galleries and smooth navigation.
- Ensured cross-browser and mobile compatibility for an optimal user experience.

Keos LLC — Multi-Module Web Application · Colombia 02/2023 – 11/2023

React.js · JavaScript · SCSS · REST APIs · [keos.co](#)

- Built responsive interfaces, dashboards, and reusable components.
- Integrated APIs with backend teams to maintain consistent UI/UX across applications.

Odoova — Odoo ERP Consulting Platform · Bangladesh 2025

React.js · Next.js · Tailwind · SCSS · [odoova.com](#)

- Designed and developed the complete, fully responsive landing page frontend for an Odoo ERP consulting firm.
- Built reusable UI components and service / case-study sections with smooth navigation and cross-device compatibility.

DeshiPOS — POS & Business Management Platform · Bangladesh 2025

React.js · Next.js · Tailwind · SCSS · [deshipos.com](#)

- Designed and built the entire landing page frontend for an all-in-one retail POS and business management product.
- Developed pixel-perfect, responsive sections (billing, inventory, analytics) optimized for fast load and cross-browser support.

LuminPOS — POS Admin Dashboard · Bangladesh 2025

React.js · Tailwind · SCSS · REST APIs · [luminpos.luminousdemo.com](#)

- Designed the admin settings and management interfaces and integrated REST APIs for the POS admin panel.
- Built reusable dashboard components with dynamic data rendering and responsive layouts.

STRENGTHS

Problem Solving & Debugging

- Skilled in analyzing error logs, API responses, and performance bottlenecks to deliver fast solutions.
- Comfortable working under pressure on challenging tasks; stay focused, productive, and calm during tight deadlines.
- Strong teamwork and collaboration with designers, backend developers, and QA.
- Adaptability to learn new technologies and implement best practices.
- Skilled in API integration and dynamic data rendering.

ADDITIONAL STRENGTHS

- Component architecture and reusable design systems
- SCSS architecture: partials, mixins, variables, nested selectors
- Cross-browser & cross-device compatibility
- Performance optimization (load time, rendering)
- Strong communication across product, design, and engineering
