SOFT SKILLS

- Problem-Solving
- Team Collaboration
- Clear Communication
- Attention to Detail
- Fast Learner
- Thrives Under Pressure

INTERESTS

- Programming & exploring tech
- Traveling
- Cricket, Badminton, Football

REFERENCE

Moniruz Zaman

CEO, Luminous Labs

PROFESSIONAL SUMMARY

Outcome-focused Frontend Developer with 3+ years of experience delivering 20+ production web applications across 5 countries (US, UK, France, Colombia, Bangladesh). Expert in React.js, TypeScript and Next.js with deep proficiency in component-driven architecture, state management (Redux, Zustand, Context API), manual and cross-browser testing (Jest, React Testing Library), and REST/AI API integration (Gemini AI). Skilled in motion design (Framer Motion, GSAP) and converting Figma designs into pixel-perfect, scalable interfaces with Tailwind CSS and SCSS. Strong record of on-time, production-ready delivery and cross-functional collaboration across design, backend and QA.

EXPERIENCE

Frontend Developer

Sept 2023 – Present

Luminous Labs · Dhaka, Bangladesh

- Delivered 20+ responsive, cross-device UIs with React.js, TypeScript, Next.js and SCSS for clients across 5 countries, cutting design-to-code cycle time ~30% through reusable TypeScript component libraries.
- Converted 100+ Figma screens into pixel-perfect production code; built and maintained 50+ reusable components using Redux, Zustand and Context API across multiple live products.
- Integrated 10+ REST APIs and Gemini AI services for real-time data rendering across 4 SaaS platforms; ran manual and cross-browser testing on 8+ projects, resolving 100+ pre-release UI bugs with QA.
- Improved page load performance 20–40% via lazy loading, code splitting and image optimisation; built 3+ WordPress sites with custom Elementor widgets.

Frontend Developer Intern

Mar 2022 – Sept 2022

Luminous Labs · Dhaka, Bangladesh

- Contributed to 4+ web app, e-commerce and WordPress projects; translated 30+ mockups into responsive HTML, CSS/SCSS and JavaScript components under senior mentorship.
- Built subscription and content-generation UI for 2 SaaS platforms; integrated REST APIs for real-time data, following the full delivery workflow — analysis, design, development, testing and release.

FEATURED PROJECTS

Beige — Creative Talent Booking Platform

Nov 2024 – Jun 2025

React.js · Next.js · Tailwind CSS · REST APIs · USA

- Built US-market talent booking platform connecting clients with creative professionals; delivered MVP in 7 months with booking workflows, project-management dashboards and mobile-first responsive layouts.

LuminPOS — POS Admin Dashboard

2025

React.js · TypeScript · Tailwind CSS · SCSS · REST APIs · Bangladesh

- Designed 10+ admin management interfaces reducing task completion time ~25%; built reusable TypeScript dashboard components with dynamic data rendering and live REST API integration.

VoiceNimble — Voice / Communication SaaS

2024 – Present

React.js · TypeScript · Next.js · Tailwind CSS · SCSS · REST APIs

- Developed responsive marketing site and authenticated dashboard with 20+ reusable TypeScript components and login flows; integrated REST APIs for real-time data sync across all dashboard views.

AI Avatar — AI Workflow Automation Platform

Jul 2025 – Present

React.js · TypeScript · Next.js · Tailwind CSS · SCSS · Gemini AI · USA

- Built 3 core modules (subscription, content generation, product analysis), cutting manual workflow steps ~60% via Gemini AI automation; integrated 5+ REST APIs with TypeScript-typed components for real-time UI.

ADDITIONAL PROJECTS

Elara Shop (Fashion E-commerce · 2026) · LuxeCart Store (E-commerce Storefront · 2025) · DeshiPOS (POS & Business · BD · 2025) · Odoova (Odoo ERP Consulting · BD · 2025) · AlertComm (Communication Platform · 2025) · Meridian Africa (Corporate Landing · UK · 2025) · IELTSMocker (IELTS Mock Test · 2024) · Text CRM (CRM & Chat · BD · 2024) · Carpentier Agency (Photography · France · 2024) · Keos LLC (Multi-Module Web App · Colombia · 2023)

KEY STRENGTHS

- Problem solving & debugging
- SCSS architecture (mixins, partials, vars)
- Performance optimisation
- Manual & functional testing
- Component architecture & design systems
- Cross-browser & cross-device compatibility
- API integration & dynamic rendering
