SKILLS

Languages
JavaScript (ES6+), HTML5, CSS3

Frameworks
React.js, Next.js

State Management
Redux, Zustand, Context API

Styling
Tailwind CSS, SASS, Responsive Design

CMS
WordPress, Elementor (custom widgets & landing pages)

APIs & Data
REST APIs, Gemini AI API, Dynamic Rendering

Tools
Git, GitHub, VS Code, Chrome DevTools, Figma, AI Tools (Claude, ChatGPT, Copilot)

Concepts
Component Architecture, Cross-Browser Compatibility, Performance Optimization

EDUCATION

Diploma in Computer Technology
Dash Polytechnic Institute, Dhaka
Feb 2023 – Present

STRENGTHS

- Problem solving & debugging
- Calm under pressure
- Team collaboration
- Fast learner
- Strong communication

LANGUAGES

English **Advanced**
Bangla **Native**

INTERESTS

- Programming & tech
- Cricket, Football, Badminton

SRABON MOZUMDER
FRONTEND DEVELOPER · REACT.JS · NEXT.JS

PROFILE

Frontend Developer with 2.9+ years of experience building responsive, high-performance web applications using React.js, Next.js, and modern JavaScript. Skilled at translating UI/UX designs into clean, scalable code, managing state with Redux and Zustand, and integrating REST and AI APIs to deliver dynamic, data-driven interfaces. Strong collaborator across design, backend, and QA, with a focus on pixel-perfect UI and cross-device performance.

EXPERIENCE

Frontend Developer · Luminous Labs, Dhaka **Sep 2023 – Present**

- Build responsive, cross-device UIs with React.js, Next.js, Tailwind CSS, and state management via Redux, Zustand, and Context API.
- Translate Figma designs into pixel-perfect, production-ready code using reusable component libraries.
- Integrate REST APIs and AI services for real-time, dynamic data rendering across dashboards and platforms.
- Build WordPress sites and develop custom Elementor widgets and landing-page components for client projects.
- Leverage AI tools (Claude, ChatGPT, Copilot) to accelerate development, debugging, and code quality.
- Collaborate with designers, backend, and QA across the full delivery cycle; diagnose and resolve UI bugs, API issues, and performance bottlenecks.

Frontend Developer Intern · Luminous Labs, Dhaka **Mar 2022 – Sep 2022**

- Contributed to web app, e-commerce, and WordPress projects across UI implementation and QA.
- Translated mockups into responsive HTML, CSS, JavaScript components under senior developer mentorship.

KEY PROJECTS

AI Avatar — AI Workflow Automation Platform **Jul 2025 – Present**

- React.js · Next.js · Tailwind · Gemini AI · [avatarplayground.luminousdemo.com](#)
- Built UI for subscription management, content generation, and product analysis.
 - Integrated Gemini AI services and REST APIs for real-time automation and dynamic data display.

VoiceNimble — Voice / Communication SaaS Platform **2024 – Present**

- React.js · Next.js · Tailwind · REST APIs · [voicenimble.com](#) · [app.voicenimble.com](#)
- Developed responsive marketing site and authenticated app dashboard for a voice communication platform.
 - Built login flow, dashboard interfaces, and reusable components; integrated APIs for real-time data.

Beige — Creative Talent Booking Platform (USA) **Nov 2024 – Jun 2025**

- React.js · Next.js · Tailwind · REST APIs · [beige.app](#)
- Developed responsive frontend connecting users with top-rated videographers and photographers.
 - Built booking interfaces, project management dashboards; integrated APIs for real-time updates.

KEY PROJECTS (CONTINUED)

AlertComm — Communication Platform React.js · Tailwind · REST APIs · alertcomm1.com ■ Built fully responsive, user-friendly frontend with interactive pages and navigation. ■ Integrated backend APIs for real-time data handling. ■ Ensured cross-device and cross-browser compatibility.	May 2025 – Oct 2025
Meridian Africa — Corporate Landing Page (UK) React.js · Next.js · Tailwind · meridianafrica.io ■ Developed a fully responsive landing page implementing pixel-perfect designs and smooth navigation. ■ Built interactive elements with cross-browser and cross-device compatibility. ■ Optimized for fast load times and engaging user experience.	Jun 2025 – Sep 2025
IELTSMocker — IELTS Mock Test Platform React.js · Tailwind · REST APIs · ieltsmocker.com ■ Built responsive frontend for IELTS mock test platform with timed test sections and user dashboards. ■ Implemented interactive question flows and result-display interfaces; integrated APIs for test data.	2024

ADDITIONAL PROJECTS

- **Carpentier Agency** — Photography Agency Site (France, Nov–Dec 2024) · React.js · Tailwind · [carpentieragency.com](#) — Built engaging landing page with interactive galleries and smooth navigation.
- **Text CRM** — CRM & Chat Platform (Bangladesh, Jan–Mar 2024) · React.js · Tailwind · REST APIs · [textcrm.chat](#) — Designed intuitive interfaces for dashboards, chat, and product catalog modules.
- **Keos LLC** — Multi-Module Web Application (Colombia, Feb–Nov 2023) · React.js · JavaScript · REST APIs · [keos.co](#) — Built responsive interfaces, dashboards, and reusable components; integrated APIs with backend teams.
